

**SMALL AND RELIABLE
THE COST EFFECTIVE SOLUTION FOR PRINTING ALL TIMING DATA**

The FDS-TP Printer is the ideal option for timekeeping.

Its RS232 and Bluetooth interface makes it the perfect companion for the TBox console and FDS IOS Apps.

With printing speeds of up to 90mm/sec. it exceeds many requirements during a timing session.

The High-Performance Li-Ion battery allows non-stop printing for up to 2 days.

Its micro size and light weight (134 g) makes it easy to store and transport.

Competitive price

FDS-Timing makes constant efforts in the design of cost-effective solutions while keeping as a priority performance reliability and simplicity.

Bluetooth – makes your timing easier

Thanks to its Bluetooth interface and our IOS applications, wireless printing is possible wherever you are.

Technical specifications

Thermal paper	58mm wide Max roll diameter of 40mm
Resolution	203 DPI
Printing width	48mm
Battery	NI-MH - 7.4 VDC, 1500mAh
External power supply	DC 9V / 1.5A
Operating temperature	-10°C à 50°C
Dimension	105 x 80 x 46mm
Weight	134 gr
